# OVEN & GRILL CLEANER

---

## **DESCRIPTION**

Oven & Grill Cleaner is an alkaline solution with grease cutting solvents and water conditioning agents. The active ingredients in Oven & Grill Cleaner effectively dissolve the caked-on oil and grease, carbonized oil, and burnt-on food from ovens, grills, utensils, etc. Oven & Grill Cleaner can be safely used on stainless steel, steel, copper, porcelain, enamel, and chromium plated materials. It can be used on aluminum only with caution since this cleaner can react with exposed aluminum.

## **SAFETY**

This product contains potassium hydroxide solution which is corrosive. Wear adequate protective clothing, goggles, and gloves when handling this product. Please see SDS for additional information.

## **APPLICATION INSTRUCTIONS**

1. Apply Oven & Grill Cleaner liberally on the surface by brush or sprayer. Use gloves and protect eyes and skin when handling this material.
2. Allow the cleaner to remain in contact for about 10-60 minutes or more depending on the thickness and hardness of the crust.
3. Scrub with steel wool if necessary and wipe off the residue with damp cloth or sponge.
4. Repeat application or increase contact time, if required.

For faster removal of heavy deposits of grease & baked-on oil:

Pre-heat oven etc., to about 140° F. This promotes more rapid, effective softening and removal of baked-on oil and grease. Follow steps 1-4, as above.

## **PACKAGING**

- 5-gal pails

## **SHELF LIFE**

5 years when stored in a closed container.
